

Tactile Sculpture

Manufacturers Information | A-NAT-2227

ladybeetle

echidna

turtle

butterfly

sea shell

leaf

snail

zen frog

Material Specifications

Post	Ironbark Timber
Footings	Stainless Steel

Equipment Specifications

Free Height of Fall	Not required
Fall Zone Size	Not required
Activity Space Recomm.	500mm clearance around post
Highest Point	Max. 590mm

Other Required Information

Treatments	Oiled Cabots Aquadeck Natural or similar
Largest Part	Post
Heaviest Part	Post - Two Person Lift

Standards

AS 4685 2021 Series

Product Dimensions

Activity Space

Please note

Our Natura Play Elements ranges are made as original pieces, not mass-produced. The character of each piece will be affected by the individual timber available at the time of production. The above image should be used as a guide only.

Whilst care is taken to select the best materials, timber is a natural material that is expected to seasonally expand and contract over time and when subjected to temperature extremes. We use Ironbark and Cypress timber in our designs, Cypress timber in particular is prone to fine checking and knots are very common. Accordingly, timbers supplied may have checks and knots that are not structurally compromising.
