

Play Material Specifications

Spire Towers, Boost, Active play circuits, Contemporary range

All our products have been made from the highest quality materials, engineered to be durable and fabricated to withstand the harsh Australian climate.

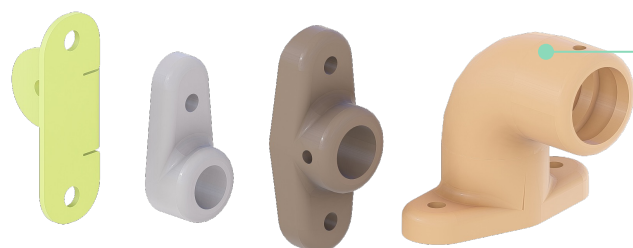

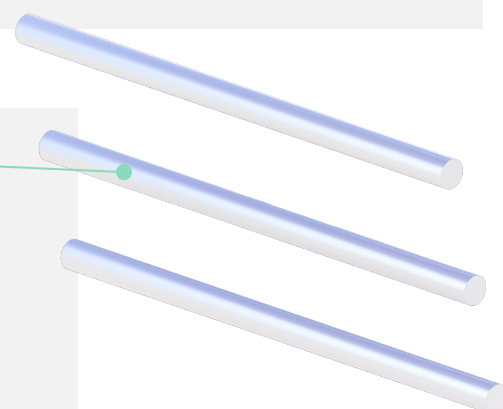

Aluminium

- Aluminium pretreated for corrosion protection with chromate and then powder-coat finish.

Steel

- Standard:** Powder coated pre-galvanized steel powder coated – various diameters and sizes
- Marine grade:** powder coated hot dip galvanized or Enviroalloy steel powder coated – various diameters and sizes.
- Stainless Steel:** Stainless sheet and steel tube, polished or powder coated – various diameters sizes

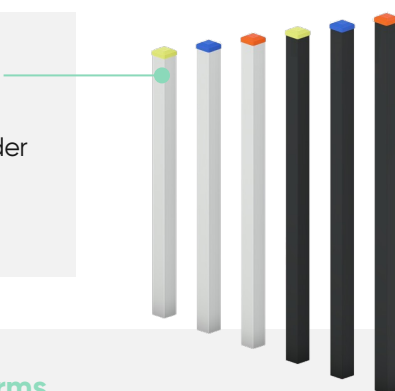

Fasteners & Fixings

- Zinc plated nutserts for attachment of components to posts.
- Marine Grade:** Stainless steel Nutserts and bolts with tamper resistant heads.
- Cast fittings:** Powder coated aluminium.

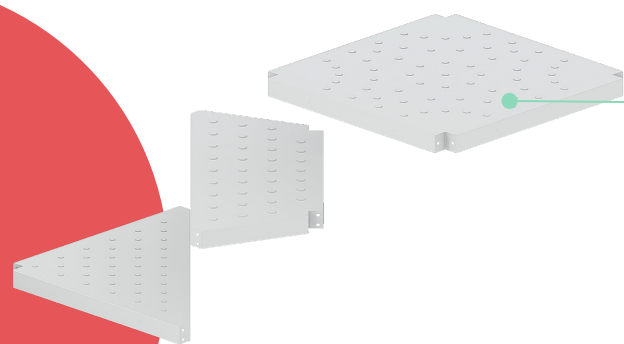

Uprights

- Pre-Galvanised RHS 75mm x 75mm x 2.5/4mm powder coated.
- Marine Grade:** Extruded Aluminium 76mm x 76mm x 2.8mm powder coated or Hot dip galvanised RHS 75mm x 75mm x 2.5/4mm
- Caps:** Injection moulded polyethylene.

Platforms

- Powder coated 2mm zinc coated steel platform.
- Marine Grade:** Powder coated 3mm braced aluminium platform.

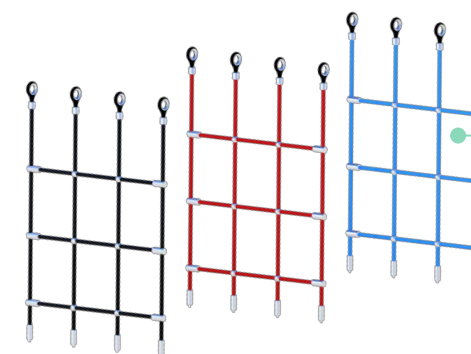

Roto-molded polyethylene

- Roto-moulded polyethylene (UV stabilized) to prevent fading.

HDPE

- 19mm UV stabilised to prevent fading and corrosion proof HDPE board.

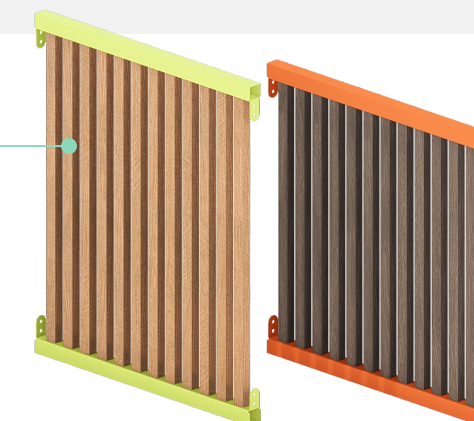

Rope

- 16mm abrasion resistant nylon rope with 6x6 steel fibre core with Stainless steel and aluminum swaged ferrules and joiners.
- Clamps:** Powder coated cast aluminium.

Timber & Composite Wood

- Timber:** Premium 'Spotted Gum' hardwood kiln dried, dressed & oiled.
- Composite Timber:** Timber alternative planks made from a combination of resin and recycled wood – no maintenance required.
